MANUFACTURING PLANT OF

## *The Western Clock Mfg. Company*

LA SALLE : ILL : U : S : A

---

THE LARGEST ALARM CLOCK  
FACTORY IN THE WORLD

PARTICULAR ATTENTION  
IS CALLED TO

## **Our Improved 30-Hour Movements**

**As Used in All Our Clocks**

Our method of construction makes untrue wheels an impossibility and gives to the movement a regularity not obtainable by other methods of construction.

WE CLAIM TO PRODUCE THE  
**MOST RELIABLE  
AND ACCURATE**  
LOW-PRICED MOVEMENTS

Our Pivots and Pinion Leaves are Hard Steel. Our Wheels and Plates are made of Hard Brass. Being strong and durable, friction is reduced to a minimum. Our escapement is the best used in any nickel clock, assuring superior timekeeping quality.

## To the Trade

WE manufacture principally Nickel Alarm Clocks. Through untiring efforts to produce the most reliable alarms we have found it necessary to increase our capacity to one million alarm clocks per annum. Dealers not familiar with our clocks are referred to

### O U R G U A R A N T E E

We will exchange or repair  
free of charge any clock  
found faulty or imperfect in  
construction

and to the large number of leading firms handling our goods successfully. Our clocks admit an attractive retail price, a fair profit to the dealer, and assure reliable quality to the public.
