THE
CASIO
COLLECTION

A Superb Selection of Modern Timepieces

THERE'S MORE TO CASIO WATCHES— more color, more life, more excitement, more fashion. AND THERE'S LESS TO CASIO WATCHES— less cost, less bulk, less fuss, less trouble.

● Perpetual, automatic calendar built into every Casio watch

Casio watches automatically determine the number of days in the month, whether odd or even.

● Guaranteed super-accuracy

The quartz crystal oscillator maintains incredible timekeeping accuracy — within ± 5 — 15 seconds a month.

● Professional stopwatch

Events can be timed to within 1/100th of a second. And you can also record net times, lap times and 1st-2nd place times. Signals confirm start-stop operation. For keep-fit fans there's a 'jogging' watch that's light and accurate in a sporty, plastic case.

● Daily alarm

To maintain a daily schedule, this alarm feature will give you a gentle reminder at a preset time every day, without having to be reset. Just the thing to wake you up, to help you catch your bus or train... or to keep that important appointment.

● Countdown alarm

Counts down back wards from a maximum of 11 hours 59 minutes. When zero is reached a buzzer will sound for 10 seconds. To repeat the countdown, simply press a button. Ideal for checking work cycles, tests, parking limits, etc.

● Half-hourly, hourly time signals

Time signals can be set to sound "pip" every half hour and to "be-e-p" on the hour.

● Dual time

A touch of a button recalls the time in a pre-set alternative time zone. Always useful for overseas telephone calls, telexes, travel, etc.

● Changeover to 12 or 24 hour formats

No more errors when referring to travel schedules frequently written utilizing the 24-hour system.

● Water-resistant to 300 meters

No more worry about water. Casio Water Sports watches are ideal for outdoor people who play or work on the water. They can be worn while swimming, sailing, surfing...in any wet environment.

● Lithium power for a truly maintenance-free watch

Casio's power cells extend battery life for as long as seven years for some watches.

● Game watches

Test your skill on these funwear watches that offer challenging entertainment with precise timekeeping.

● New scientific cal-watch

This new workalong style in wristwear gives computer engineers, scientists, businessmen... anyone using figures on the move, a valuable source of intelligent math work. A refined touch panel quickly locates 26 scientific functions. These include Base-n calculations and logical operations.

● DATA BANK watches

These wrist-top information terminals have proved their merit to many hard-nosed businessmen. Research shows that 70% of current users regard the Data Bank function as an asset to their daily activities. A new RAM chip enables storage of 50 pages of data—all readily accessible by a code-recall system.

● Touch-key panel

No more buttons! The free-space key panel is the style of the future. Each key area is touch sensitive for fast and fluid calculations.

● DIGIPAPER watches

Perhaps the absolute in slim style watches. The creation of this contemporary wristwear was made possible by a new computer-aided molding process. Known as 'interlock molding' this revolutionary process integrates two different types of material into a single lamina. The result is a soft, pliable resin strip that caresses the wrist topped by a hard resin case that protects the watch's electronic components.

● Thermo sensor watch

Temperatures are displayed in digital and bar graph formats with instant C and F conversions. Ambient body temperatures are compensated for automatically, giving highly accurate readings.

● Janus (men's combination watches)

Some fascinating and practical styles have been devised for the marriage of classical and modern watch faces. Distinctive among these is the split-module watch giving separate analog and digital faces with an overall harmony.

● Ladies' analog quartz

An extensive range of Casio analog watches is now available with styles to suit every taste and budget. Quartz technology lies behind their superb accuracy.

● Solar energized watch

Solar cells, with a semipermanent lifespan and a high energy conversion efficiency of up to 8%, convert all incoming light into electrical energy to recharge the smaller secondary battery. These cells boost the watch to a seven year non-stop operation and allow it an extra-flat casing. This makes the watch highly suitable for people who are active outdoors in work or sports.

Casio Watches and Clocks Are Made in Japan.

● Men's analog quartz

With these smartly casual watches Casio shows its excellent credentials as a quality watchmaker. They are in the vanguard of a new range of timepieces that make precision and style a carefree buy.

● Titanium ion plating

The importance of surface treatment has become of special interest from the viewpoint of resources saving. This has brought physical vapor deposition into the limelight as a clean, harmless, surface treatment. Ion plating, in particular, has the following advantages: 1) The formed film has excellent deposition efficiency, and 2) ultra-hard films on TiN, TiC, etc. can easily be formed. TiN assumes a gold color, and therefore has won the attention of Casio as a surface finish film with better wear-resistance than gold.

● 'Gold tone' watches

The amazingly fast progress of electronics, aeronautical engineering and rocketry has brought with it great demand for refinements in gold and gold-nickel plating. The characteristics of the gold-nickel alloy — a high hardness factor and excellent resistance to discoloration and corrosion — make it a choice material for plating. Casio 'Gold Tone' watches are plated with gold-nickel alloy containing gold of 22 carats or more. Although the techniques of gold plating are still developing, its attractiveness and such a low cost makes it highly popular, but, like many things of value, its beauty is not permanent and wear of the plating is unavoidable with regular use.

● Color burst

With the public now more fashion conscious than ever, color has burst into life on wristwear. Casio has given birth to some of the more striking new color fashions, watches and bands to match the moods of the day: earthy hues, pastels, floral patterns, mono-tones, Italian casual, traditional, geometric segments, cartoon characters... even tartans. Lots of exciting variety that now includes the latest fashion — silk screen printed bands for the real a la mode market.

● Rainbow metal cases

The advantages of the aluminium case are: 1) good coloring, 2) lightness and strong water resistance (5 atm or more), and 3) a hard alumite that resists scratching.

● Modern materials for modern movements.

Use of the latest engineering plastics gains superb precision and durability for Casio's range of analog watches. Poly-acetal resin gears, for example, have tooth tip radii machined to an ultra-accuracy of up to 20 microns; new micro-molders can achieve a surface finish of less than 1 micron, and parts are made rapidly and economically by high-speed injection molders. The excellent qualities and workability of these materials reduces costs, the number of parts and work processes as never before in the manufacture of the analog watch movement.

Never before has such a lightweight watch been so loaded with features for the thinking man. The key panel is a buttonless beauty, for positive input via a touch sense system.

PACKED WITH CALCULATING POWER!

● A lot more than basic math—

Handles parentheses calculations of up to 12 pairs nestable at 4 levels. Directly input expressions automatically sorted and formula calculated in true algebraic logic.

(Example) $10 - [7 \times (3 + 6)] = -53$

(Operation) $10 - 7 \times () = 3 + 6 () =$
(1) (1)

● A wide field of science—

26 scientific functions, easy to locate and use. Key function indicator and clearing system for inactive digits.

(Example) $\log 456 + \ln 456 = 0.4342944$

(Operation) $456 (L) \log (L) 456 (L) \ln (L) =$
[Min] [log] [MR] [ln]

● And base-n computations—

Base-n mode provides instant conversion among binary, octal, decimal and hexadecimal based numerics. Logical operations aid in computer calculating and program debugging.

(Example) $19_{16} \text{ AND } 1A_{16} = 18_{16}$

(Operation) $19 (A) \text{ MR DEG } \div \text{ HEX } (A) \text{ Min RAD } \times \text{ AND } (A) \text{ 0 A } =$
(HEX) (AND) (A)

DATA BANK TELE-MEMO 20

- 20 sets of telephone numbers (20 sets of 4 letters and 12 numerals)
- 3 daily alarms

CAMERAS

EF-8

The Ultimate in Simplified Picture Taking Sophistication

● **Type:** 35mm camera with auto-winding/rewinding ● **Film format:** 24mm x 36mm ● **Lens:** Casio F/3.8, f35mm, 3 elements in 3 groups ● **Slide-over lens cover** ● **Shutter speed:** 1/125 sec. ● **Viewfinder:** Bright-line finder ● **Focusing method:** All-range focus system (1.2m to infinity) ● **Built-in flash:** Guide No. 11 ● **Filmspeed setting:** ISO100, 200, 400, 1000 ● **Power source:** 2 x 1.5V AA batteries ● **Dimensions:** 133 x 70 x 50 mm ● **Weight:** 200g (without batteries)

AF-5 Type II

It does everything right for unprofessional fingerers.

● **Type:** 35mm camera with auto-focus ● **Film format:** 24mm x 36mm ● **Lens:** Casio F/3.8, f35mm, 3 elements in 3 groups ● **Slide-over lens cover** ● **Focusing:** Active type auto-focusing (range: 1.2m to infinity) with focus memory lock ● **Shutter speed:** 1/125 sec. ● **Viewfinder:** Bright-frame finder (Albada type) 0.5 x magnification ratio ● **Built-in flash:** Guide No. 11, recycling time: 7 sec. ● **Filmspeed setting:** ISO100, 200, 400, 1000 ● **Power source:** 2 x 1.5V AAA batteries ● **Dimensions:** 117 x 72 x 43.5mm ● **Weight:** 245g (without batteries)

AF-10 Type II / AF-10D Type II

Gives automatic capabilities in the most attractive form.

● **Type:** 35mm camera with auto-focus/auto-winding/rewinding ● **Film format:** 24mm x 36mm ● **Lens:** Casio F/3.8, f35mm, 3 elements in 3 groups ● **Slide-over lens cover** ● **Focusing:** Active type auto-focusing (range: 1.2m to infinity) with focus memory lock ● **Shutter speed:** 1/125 sec. ● **Viewfinder:** Bright-frame finder (Albada type), 0.5 x magnification ratio ● **Built-in flash:** Guide No. 11, recycling time: approx. 7 sec. ● **Filmspeed setting:** ISO 100, 200, 400, 1000 ● **Power source:** 2 x AA batteries ● **Dimensions:** 128.5 x 70 x 45mm ● **Weight:** AF-10 250g, AF-10D 260g (without batteries)

RF-2 50mm F2.0 LENS

Everything the serious photographer needs in an SLR camera. A quality 50mm lens teams up with a highly responsive TTL center-weighted exposure meter. Shutter speeds from B to 1/2000 catch everything.

● **Type:** 35mm focal plane shutter, SLR ● **Film format:** 24mm x 36mm ● **Lens:** f/2.0, focal length 50mm ● **Lens mount:** K type bayonet mount ● **Shutter:** Metal focal plane shutter operating vertically, B 1 - 1/2000 sec. ● **Viewfinder:** Magnification 0.86 x (with 50mm standard lens) ● **Exposure metering:** Full aperture TTL metering system, Center weighted measurement, 3 LED display ● **Exposure range:** (ISO 100/21° EV3 (F/2, 1/2s)-EV19 (F/16, 1/2000 s)) ● **Filmspeed setting:** ISO 25/15° 1600/33° ● **Self-timer:** approx. 10 sec. ● **Power source:** 2 batteries (LR44 or SR44) ● **Dimensions:** 133 x 85 x 50mm ● **Weight:** 410g (without batteries)

RF-2 35-70mm F3.5-4.5 MC MACRO LENS

The exciting results of variable range photography. Latest opticals allow light and compact built-in zooming without lens changing.

50mm Standard Lens F2.0 for RF-2/RF-3

● **Optical construction:** 5 groups - 6 elements ● **Angle of view:** 46° ● **Minimum focusing distance:** 0.5m ● **Minimum aperture:** f/16 ● **Filter size:** 49mm ● **Maximum diameter:** 62.5mm ● **Total length:** 33.5mm ● **Weight:** 115g

35-70mm Lens F3.5-4.5 for RF-2/RF-3

● **Optical construction:** 7 groups - 7 elements ● **Angle of view:** 63-34° ● **Minimum focusing distance:** 0.9m (0.33m in macro) ● **Macro ratio:** 1:4 ● **Zoom operation:** Rotary ● **Minimum aperture:** f/22 ● **Filter size:** 55mm ● **Maximum diameter:** 63.5mm ● **Total length:** 67mm ● **Weight:** 365g

RF-3 50mm F2.0 LENS

AUTO/MANUAL

Rewards the serious photographer with superb pictures. No wasted time or shots with electronically controlled exposures and automatic shutter speed guides settings.

● **Type:** Electronic controlled 35mm focal plane shutter, SLR ● **Film format:** 24mm x 36mm ● **Lens mount:** K type bayonet mount ● **Shutter:** Electronic metal focal plane shutter operating vertically, AUTO: 1/1000-8 sec. MANUAL: 1/1000-2 sec. B ● **Viewfinder:** Image magnification ratio; 0.86 x, field of view 93% Focusing screen: Pentaprism type, three focusing method available; matching the divided image through horizontally spill image spot, focusing through microprism collar, and focusing through entire matte surface screen ● **Exposure control:** TTL center-weighted metering with SPD AUTO; aperture priority exposure automatically controlling shutter speed MANUAL; by matching lighting and blinking LED's ● **Metering range:** EV1 to EV18 with ISO100 and 50mm F2.0 lens ● **Filmspeed setting:** ISO25/15°-1600/33° ● **Self-timer:** approx. 10 sec. ● **Power source:** 2 batteries (LR44 or SR44) ● **Dimensions:** 136 x 85 x 50mm ● **Weight:** 410g (without batteries)

RF-3 35-70mm F3.5-4.5 MC MACRO LENS

AUTO/MANUAL

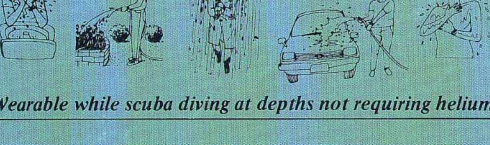

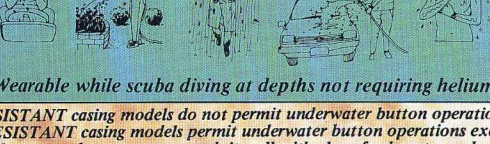

A stupendous all-round camera loaded with features for top photography. Multi-range shots from one-touch zooming between 35 and 70mm.

*Optional soft cases are available for each model. (FSC-C for EF-8/AF-5/AF-10/AF-10D type II, FHC-B for RF-2/RF-3)
Supplied semi-hard case for macro lens cameras.

DEGREE OF WATER RESISTANCE CASIO QUARTZ WATCHES

Please familiarize yourself with the correct applications, so that you can recommend the most suitable watch for your customers' needs.

NOMINATION	EXAMPLES OF USE	
	SUITABLE	UNSUITABLE
WATER RESISTANCE	 <i>Wearable while water is being splashed but not under any pressure.</i>	
30M WATER RESISTANCE	 <i>Wearable while water is being splashed but not under any pressure.</i>	
50M WATER RESISTANCE	 <i>Wearable around sinks, during athletic sports, in shallow waters, but not while scuba or professional diving.</i>	
100M WATER RESISTANCE	 <i>Wearable around sinks, during swimming athletic sports, poolside diving, but not highboard diving and surfing.</i>	
200M WATER RESISTANCE	 <i>Wearable while scuba diving at depths not requiring helium gas.</i>	
300M WATER RESISTANCE	 <i>Wearable while scuba diving at depths not requiring helium gas.</i>	

* 50M WATER RESISTANT casing models do not permit underwater button operations.

** 100M WATER RESISTANT casing models permit underwater button operations except where buttons are countersunk. Should the watch be exposed to sea water, wash it well with clean fresh water and wipe dry.

*** Avoid button operations when soap or shampoo bubbles on the watch case. (Water-resistance may be impaired.)
